EXECUTIVE SESSION

Mr. LOTT, Mr. President, I ask unanimous consent that the Senate immediately proceed to executive session to consider the following nominations just reported from the Armed Services Committee: Gen. Wesley Clark and Lt. Gen. Anthony Zinni. I further ask unanimous consent that the nominations be confirmed, the motions to reconsider be laid upon the table, and any statements relating to the nominations appear at the appropriate place in the RECORD, and the President be immediately notified of the Senate's action, and the Senate then return to legislative session.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

IN THE ARMY

The following-named officer for appointment in the U.S. Army to the grade indicated while assigned to a position of importance and responsibility under title 10 United States Code, section 601:

To be general

Gen. Wesley K. Clark, 0000.

IN THE MARINE CORPS

The following-named officer for appointment in the U.S. Marine Corps to the grade indicated while assigned to a position of importance and responsibility under title 10 United States Code, section 601:

To be general

Lt. Gen. Anthony C. Zinni, 0000.

Mr. LOTT. Mr. President, I would like to note special appreciation to the Armed Services Committee for moving these nominations. I want to thank the chairman for having extra meetings to get these two nominations cleared. I want to thank Senator Levin from Michigan.

It would have been a very awkward situation tomorrow and the next day at the change of command of our NATO officials if we had not had Gen. Wesley Clark confirmed and in a position to assume command from General Joulwan. This was a very positive move. I thank the Armed Services Committee and the Senate for their cooperation in these confirmations.

I yield the floor.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will return to legislative session.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1998

The Senate continued with the consideration of the bill.

Mr. REID addressed the Chair.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Would the Chair inform the Senator from Nevada what the parliamentary status on the floor is at this time?

The PRESIDING OFFICER. The pending business is the defense bill, S.

936, and the pending question is on Dodd amendment No. 763.

Mr. REID. I ask unanimous consent that the Dodd amendment be set aside for purposes of my offering an amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 772

(Purpose: to authorize the Secretary of Defense to make available \$2,000,000 for the development and deployment of counterlandmine technologies)

Mr. REID. Mr. President, I ask the clerk to call up amendment No. 772.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 772.

Mr. REID. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The amendment is as follows:

On page 30, between lines 19 and 20, insert the following:

() AVAILABILITY OF FUNDS FOR COUNTER-LANDMINE TECHNOLOGIES.—Of the amounts available in section 201(4) for demining activity, the Secretary of Defense may utilize \$2,000,000 for the following activities:

(1) The development of technologies for detecting, locating, and removing abandoned landmines.

(2) The operation of a test and evaluation facility at the Nevada Test Site, Nevada, for the testing of the performance of such technologies.

Mr. BUMPERS. Will the Senator yield for a question?

Mr. REID. Yes.

Mr. BUMPERS. Could the Senator say about how long he anticipates speaking on his amendment?

Mr. REID. About 10 to 12 minutes.

Mr. BUMPERS. I thank the Senator.

Mr. REID. Several years ago, I and a number of my colleagues took a trip. One of the places we went to was Angola. It was a beautiful country. It is a country that has been devastated by war. We did not see the wild animals roaming the plains as they did at one time. We did not see the oil fields pumping as well as they should have. What we did see were hundreds of people who had been injured by landmines. Their legs were gone, their arms were gone. We, of course, did not see the people who were killed on a daily basis in Angola from landmines.

If Angola were the only place in the world that had been devastated by landmines, perhaps we should not take the time of this body by looking at it. But Angola is important, and where the antipersonnel landmines have ravaged the countryside, we in this body must be concerned.

I rise today, having introduced an amendment to accelerate the removal of millions of abandoned antipersonnel landmines. This is just one more important step in the long and difficult job of stopping forever the killing and

maiming of innocent men, women and children, by these useless relics of warfare and terrorism.

Mr. President, I am appreciative of the work that has been done by Senator PAT LEAHY on bringing to our attention the devastating problem of abandoned landmines. He has fought long and hard and spoken out on this issue, and I appreciate that. He has a long-time commitment to terminating this threat to innocent noncombatants. The whole world, and especially the developing world, owes Senator Leahy thanks for his leadership in forever banning these instruments of war.

These landmines have limited military utility, with primary value found in the terror and timidity they incite in the enemy infantry. Modern military battles, though, are not won by the infantry. Victory may very well be sealed by the infantry, but the battle is won by the air, by the artillery and by the armored mechanized forces.

My amendment responds to a terribly tragic situation in which an unnecessary weapon remains long after battle, and wreaks its terror and its death and destruction on innocent civilians.

Mr. President, I am going to recite some statistics that are unbelievable, for lack of a better description.

It is estimated that there are more than 100 million of these landmines buried and abandoned in 64 different countries. That is one landmine for every 50 people on this Earth. I have talked about Angola. The Angolan war lasted for much more than a decade. The country of Angola has 10 million people in it, but buried in the dirt in Angola are more than 20 million landmines, 2 landmines for every person in Angola.

They are buried, they are unexploded, they are unrecovered, and they are waiting for women and children, principally, to step on them. Why women and children? Because the women are often the ones to work the fields and the children are the ones that often unknowingly stray into the abandoned minefields.

In Angola, 120 people die every month from landmines. Four people a day in Angola are killed. This does not take into consideration the scores, the hundreds of people that I saw in Angola missing legs and arms.

Every month in Cambodia, 300 Cambodians are casualties—10 casualties each and every day.

Afghanistan, Mozambique, Croatia, Bosnia, Vietnam—in all these countries, and more, the toll mounts.

We were in Bosnia a year or so ago. While we were there a call came over the commander's radio, a call reporting a landmine casualty. It was a Russian who had had a leg blown off by a landmine. These are occurrences that happen all the time.

In the world, we have about 70 casualties a day, 500 each week, 30,000 a year. These casualties are unnecessary, and without action on our part—we cannot leave it to anyone else—they
